IMPORTANT NOTICE

As a protection to our customers who are entitled to wholesale prices, we ask that they do not lend this catalog to retail buyers. Offers in this catalog are extended only to those in the trade.

Prices in this list cancel all previous quotations and are subject to change without notice.

Association Membership

To further the interest and growth of the different phases of our work and to keep posted on all affairs of interest to the trade, we maintain membership in the following organizations:

American Association of Nurserymen

Southern Nurserymen's Association

Southeastern Florist Association

Alabama Nurserymen's Association

Mississippi Nurserymen's and Florists' Association

Ohio Florists Association

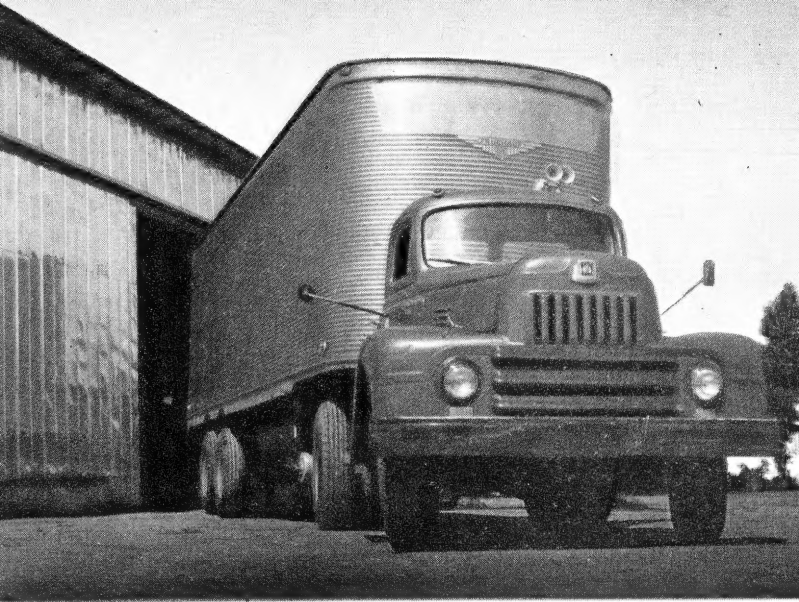

South Alabama Nurserymen's Association

Mobile Chamber of Commerce

Texas Association of Nurserymen

The American Horticultural Society

South Carolina Nurserymen's Association

ONE of our modern trailer trucks used to expedite fast, safe delivery to our customers within a radius of 100 to 2000 miles from Semmes. Charges average much less than railroad rates with delivery at your door. All plants are carefully packed and loaded by experts in order to guarantee perfect condition upon arrival. The spacious packing shed shown in the background is also used to store plants awaiting shipment. This protects them from the weather as well as from possible injury keeping them in the same excellent condition as when they were taken from the ground for shipment to you. Modern equipment is used throughout the entire nursery along with modern ideas that help us to grow strong, healthy, hardy plants that can be transplanted without fear of loss. It is to our advantage to offer our truck service to you, as we know that plants grown by us and delivered directly to you will make you a satisfied customer.

Indica Azaleas

The most popular of all Southern flowering shrubs and evergreens, the Indica Azalea continues to retain its unequalled charm and beauty in the landscaped gardens and lawns of the smallest homes to the largest estates.

As its popularity increases, our efforts to produce the best stock continues, and now we have a good supply of many of this type. All are well rooted, have been root-pruned, and are guaranteed to have the best foliage color that can be produced. We urge you to try at least a few. You will be completely satisfied with the sales of these fine, beautiful plants.

DAPHNE SALMON—With medium flowers, typical of the name in color, it is a very hardy plant that is ideal for greenhouse or landscaping. (Liners, 8-10", 10-12", 12-18")

DODD'S PINK—Very hardy Azalea with large pink flowers that bloom about the same time as Pride of Mobile. A good grower that blooms prolifically. (Liners, 8-10", 10-12", 12-18", 18-24")

FIELDER'S WHITE—One of the best whites among the Indicas with pure white flowers and dark green foliage.

FORMOSA—Very fast grower with large dark leaves and big purplish pink flowers that bloom about the same time as Pride of Mobile. A good grower that blooms prolifically. (Liners, 8-10", 10-12", 12-18")

GEORGE L. TABER—Fast grower, pink and white variegated flower, light green foliage. (Liners, 8-10", 10-12", 12-18")

JUDGE SOLOMON—A pink sport of Formosa. Has the beautiful dark green foliage of Formosa and also its hardiness. The bloom is a lovely deep pink. A very good new introduction to the Azalea family.

PRIDE OF MOBILE—A fast grower with foliage a shade lighter than that of Formosa. Very hardy and a good bloomer, forming watermelon-pink blossoms in masses that completely cover the plant.

Prices on Indica Azaleas

	10	100
6 to 8 in., Bed grown liners	\$1.10	\$10.00

Indica Azaleas growing outside in full sun. They are hardy, well budded, very compact and excellent for landscaping and general nursery use. These Azaleas are an exceptionally rugged shrub, capable of withstanding cold as well as heat, changeable climatic and adverse conditions.

Azalea

Kurume Azaleas

Compact form, adapt for forcing, hardy and a veritable riot of color when in bloom, briefly describes the Kurume Azaleas.

Having gained rapid popularity, they are nearly the "tops" for all types of trade, being used in border plantings, in effective combinations with other Azaleas, with various landscape plans and now, as profitable for planters, florists and Greenhouse-men.

BESSIE A. DODD—Similar to Coral Bells, with a delicate clear pink flower, but blooms later and longer. A fast grower. (4-6" liners, 8-10", 10-12")

CHRISTMAS CHEER—Small, deep crimson flowers, compact plant that is good for pot culture. Very good for forcing for Christmas. (4-6" liners, 6-8")

CORAL BELLS—Coral pink, well shaped, hose in hose flowers. It is one of the best plants for florists forcing. Small leaves and a compact grower. (6" liners, 6-8", 8-10")

FASHION—Salmon pink, hose in hose flower. Very compact grower and a prolific bloomer.

HEX E—Slow, compact grower with showy deep scarlet hose in hose flowers. (6-8")

HINODEGIRI—Brilliant deep red flower, that are borne in clusters. Slow, compact grower making it a good pot plant. Continuously a favorite for landscape borders. (4-6" liners, 4-6", 6-8")

Pericat Azaleas

PINK PERICAT—Large pink flower of the hose in hose type. (4-6", 6-8")

SWEETHEART SUPREME—Delicate shade of clear pink, hose in hose flower. (4-6", 6-8", 8-10")

Camellia Japonica

Camellia Japonicas growing in one of our large fields. Real beauties, they are gaining in popularity throughout the United States. Close up shows a Camellia Japonica ready for shipment to you.

Presenting a grand array of color in the bleak and otherwise blossomless winter, *Camellia Japonica*, "Aristocrat of the South," is gaining rapid favor in other sections of the country. Its beauty and importance has been definitely recognized on the West Coast, and favorable comments from the Northern Florists continue to increase.

Camellia culture presents no particular difficulties, but special care will be rewarded with beautiful, lasting blossoms. First, they must have a soil that is acid in reaction, and if this condition is not already present it may easily be obtained by addition of leaf mold, peat moss and applications of aluminum sulphate—one quarter pound to a square yard.

Camellias may be fertilized with a mixture of cotton-seed meal, super-phosphate, potash, and well-rotted manure in the respective parts of 10-2-1-5. Aluminum sulphate should be added one-half part if soil needs acidifying.

The few diseases and insects attacking the *Camellia* may be controlled easily. *Camellia* or tea scale, the most common, may be eliminated by use of Florida Volck—1 part to 50 parts of water. Spraying should be done in the early morning or late afternoon, to prevent leaf-scalding. To protect the valued bloom-buds, do not spray in the winter.

STANDARD CAMELLIAS—CLASS A

CHANDLERI ELEGANS—Blooms profusely, usually late in January. The flowers are loose peony form with variegated white and cherry-red petals, with prominent stamens mingled with the short center petals.

DEBUTANTE—Double peony form of delicate pink flower. Early bloomer beginning in November. Large light green leaf. Florists like this.

GOVERNOR MOUTON (Aunt Jetty)—Variegated red and white irregular double flower. In the center of the flower is found a most attractive mass of many petaloids with a few large ones intermixed. Hardy and blooms midseason.

KUMASAKA—Large incomplete double flower, carmine with white markings. Very free flowering plant blooming in midseason. Foliage is a lovely dark green.

PINK PERFECTION—Formal double light pink flower. A good corsage flower for all ages. Plant very hardy with medium green foliage. Blooms midseason.

PRINCE EUGENE NAPOLEON (Pope Pius)—Formal double, medium size, crimson flower. Midseason to late. The bright green leaves are a nice contrast for the flower.

PROFESSOR SARGENT—Medium size dark red irregular double flower. Noted for the numerous petaloids closely packed together completely hiding the stamens. A free bloomer and especially for Christmas arrangements.

VICTOR EMANUEL—Large turkey red flower blooming late in season. Very showy with waved petaloids, loosely mixed with fascicles of stamens.

Camellia Japonica

STANDARD CAMELLIAS - CLASS B

BRILLIANT—Medium large, compact grower with dark green lush foliage. Flowers are brilliant red.

CHEERFUL—Medium sized, upright grower. The rose-type blooms begin appearing early in season. Flowers are deep pink.

GLOIRE DE NANTES—Semi-double, deep, rose color flowers. Extremely large, dark green leaves. Lush grower.

JARVIS RED—Incomplete double red flower. Medium size with lovely yellow stamens intermixed with several petaloids. A graceful plant blooming in midseason.

SARAH FROST—Carmine formal double flower. Opens flat and shades to a somewhat lighter carmine in center. A very free bloomer and is most hardy in any garden in the South.

Prices on Standard Camellias (Class B) Each

Camellia Sasanqua

This beautiful plant must be the answer to the Landscape Architect's wish for an evergreen flowering plant which can be used for screening, clipped hedges, a specimen, foundation planting, and espalier. It is one of the hardiest of the broad leaf evergreens and has become very popular with the Landscape Architect. We have over 100,000 in the field.

CLEOPATRA—Deep rose semi-double flower of medium size. Numerous short yellow stamens. Plant has small thick leaves of a dark green.

****DAWN**—Semi-double ivory white with light pink margins. Slow grower. One of the hardiest of all Sasanqua.

MINE-NO-YUKI—Irregular double white. Free and prolific bloomer.

****MISS AUBURN**—Large single flower of deep rose shading into a lighter colored center. A good fast grower with dark green leaves. An origination we were proud to introduce.

ROSEA—Large, single, deep pink flower. An upright grower.

SHELL PINK—Large single light pink blooms. Very, very fast grower.

Oriental Magnolia

A typical plant (inset) and field of Ornamental Magnolias

Very popular large shrub or small tree. The lovely large cup-shaped blossoms appear in the early spring before the leaves. The foliage through the summer months is a cool soft green.

MAGNOLIA ALEXANDRINA—Large rosy-purple flower on outside contrasted with white inside the blossom. A good grower and a lovely flower.

MAGNOLIA NIGRA—Tulip shaped, deep purple flowers appear before the leaves. Makes a large bush with several stems from the ground.

MAGNOLIA SOULANGEANA—The lovely pink flowers of this plant hold everyone spellbound. Very hardy and a dependable bloomer.

***MAGNOLIA STELLATA**—Semi-dwarf with spreading branches. Has numerous sweet-scented white flowers with oblong petals. Quite hardy, and free blooming. Excellent in the landscape of small gardens.
